

Saeco Idea Cappuccino

Installation Dimensions and Specifications

Machine Dimensions

Width = 527mm
Height = 673mm
Depth = 540mm

Installation Dimensions

Width = 600mm, or 1.0m if you would like a fridge on the right side.
Height = 800mm
Depth = 600mm

Weight = 63Kg

The machine needs to be installed no more than 2m from plumbing (ie sink)

Power

Power = 240V, needs to be underneath the machine, usually under the sink.

AMP = 15

Power Consumption = 3250W

Plumbing

Prior to installation, a cold water main inlet with a shutoff valve to connect to, similar to a dishwasher will be required.

A waste water outlet to connect to, similar to a dishwasher, will also be required.

A hole will need to be cut for the water and power hoses in the benchtop which will be done by Perfect Coffee at Work.

We will install a 350kPa pressure reducing valve and a cartridge filter system.
